

GET READY FOR YOUR TRANSITION TO ELECTRIC VEHICLES.

1 INITIATE

WHY START THE ELECTRIFICATION TRANSITION?

- Electric vehicles are affordable, with renewable fuel sources and lower maintenance needs
- Combustion engine restrictions will continue to increase, limiting access to some markets
- Decentralized generation enables you to produce your own energy
- Corporate sustainability goals are greatly accelerated with a cohesive EV strategy

2 PARTNER

WHO WILL HELP ME GET EV-READY NOW?

PACCAR recommends **Qmerit** to lead the integration between PACCAR trucks, charger hardware and network software for seamless installation and commissioning due to nationwide expertise, negotiated costs and warranty coverage.

3 SOLUTION

HOW DO I GROW WITH THE DEMANDS OF THE FUTURE?

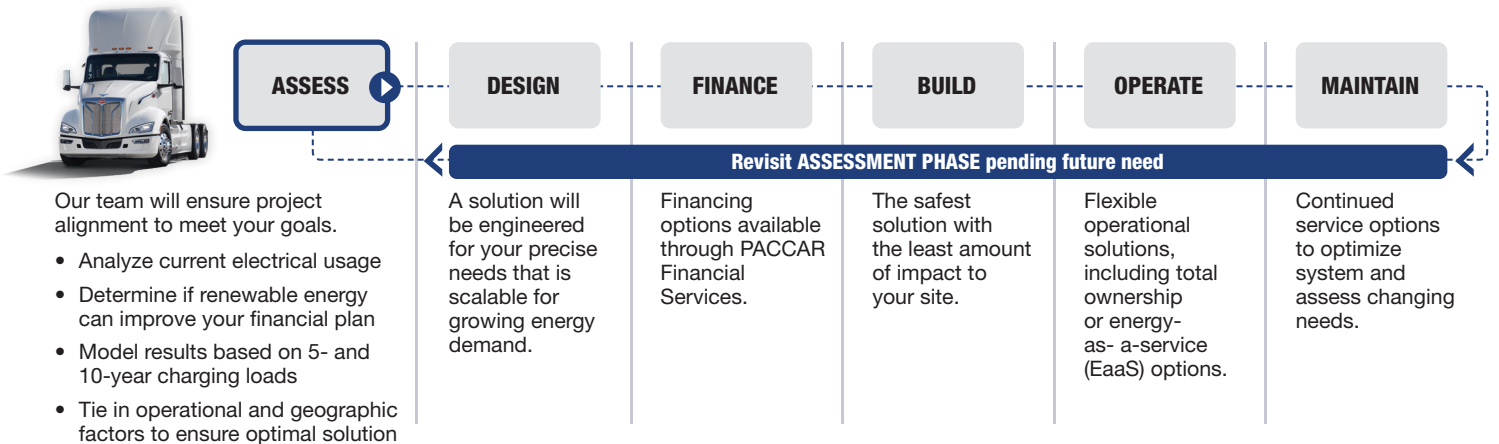

Choosing scalable solutions designed and engineered by **Qmerit** enables you to scale your EV infrastructure as demands evolve.

1 | Understanding EV Infrastructure

2 | Getting EV Ready is a Step-By-Step Process

There's more to EV infrastructure than just installing a charging station. Following a proven process allows for identification of the most economical and scalable deployment strategy for your business.

3 | The Perfect Partnership

As a chosen Peterbilt partner, Qmerit will deliver the highest quality, scalable, and innovative EV infrastructure solutions.

Qmerit provides EVSE installation services delivered through its network of Company-Owned contractors, Independent Certified Solutions Partners and Certified Installers.

Qmerit's digital managed services platform is behind thousands of highly satisfied customers who have made the transition to electrification.

CONTACT YOUR PACCAR FLEET SALES MANAGER TO SCHEDULE A SITE ASSESSMENT FOR YOUR ELECTRIC VEHICLE STRATEGY.
